

The FLY PAPER

The Official Newsletter of
Gateway R/C Club of Jax.

JULY, 2010

4th of July Picnic— fun for all

Sunday, July 4th was the annual Members Picnic. Despite some rather high winds, A lot of flying was done, with only one reported mis— hap.

Dave once again manned the grille and cooked up the dogs and burgers, and members brought covered dishes. There was plenty of food to go around.

Special thanks to all those that came out and prepared for the event. I hear we had a problem with the mower, but that didn't stop members from using their own equipment to finish the job— THANKS!

**Please send
all submis-
sions for the
Flypaper to:**

mastrsn@bellsouth.
net

Next Meeting:

**Tues, August
3rd
St. Johns Sea-
food on Lane
Ave.
Starts 7:00p**

Up Coming Events

**34th Annual
OJ Stillman
Pattern con-
test.
Sept. 24— 26th**

2010 Club Officers

Tom Hembly, President	266-2347
Buford Howard, VP	879-2834
Bob Masterson, Secretary	762-0270
Dave Keller, Treasurer	778-2384
John Zeigler, Director	

NOTICE

**As of July 4th, the Gate Keys have been CHANGED
New Keys can be gotten by seeing Dave Keller at
Hobby World or by coming to the next meeting.
You will need to return your old key to get the new
one. If you do not have the old one, you will need to
pay for a new one.**

I don't know if Gateway RC does anything like this, but if so I would like to have some help in giving an activity based on flying to a group of mentally challenged kids and young adults. They are in an Aktion Club held at Pine Castle which is sponsored by my Kiwanis Club. This will be at Pine Castle on July 15 at 10:30 AM till 11:15. There are usually about 12-17 members at each meeting.

Plan is to do something fun for them involving airplanes. Start with a very short talk for just a couple of minutes about flight. Their attention span is short so no long presentations anyway. Then have folks help them fold paper airplanes and have a short competition in their gym. Then I plan to buy small balsa planes for each of them from Hobby World and if there is time they can, with our help, put these together and fly them in the gym then take them home.

Please let me know if this is appropriate for Gateway RC and if you know of one or two members who can help for an hour. I will have a couple of Kiwanis folks there too as one adult is needed for each 3-4 Aktion Club members. Pine Castle will have at least two staff there too.

Thanks,

Steve Arrington

NEXT MONTH IN THE FLYPAPER

Next month we will be making an effort to bring you some news on the new flying field, where we stand in the process and what the City is doing to move the process along.

FOR SALE

Eflite 20-300 Ultimate BNF

Eflite Power 15 motor

Electrifly Silver edition 45a esc w/deans

(4) Hitec HS65HB Servos

Spektrum AR6110 receiver

Eflite Aluminum Spinner w/Apc propeller

(1) 11.1 2350mah lipo w/deans

The 20-300 Ultimate has a bit longer fuselage, which allows the plane to fly more linier than the normal Ultimate (holds a straight or level flight). The Ultimate is upgraded to a Power 15 for better 3D capabilities and has upgraded servos, Hitec HS65HBs. The Ultimate flies GREAT and has never been crashed or even had a prop strike. Over \$450.00 invested.

Asking \$335.00 with receiver

I have for sale, a Futaba 8U in very, very good shape. I bought it a few years back from Kevin Wilson, It still had the plastic film on the flat areas.

I have installed a Spektrum DSM2 module in this radio, it works flawlessly and I have had zero problems with it, I used it to fly with today (June 29th), before picking up my 9503 at Hobby World.

Also included is a carry case, and a spare transmitter battery. I upgraded the batteries about a year ago from OnlyBatteryPacks.com they are 2600mA NIMH packs that sell for \$25 each. Wall charger included.

The original Futaba instruction manual, the Spektrum Module system instructions, and a Radio Programming by Harry Higley book is included in the sale. The Harry Higley book talks you through the programming step by step with basic English that you can understand.

All this for \$100 firm, delivered to the field or Hobby World.
